

Visit: [The Right Photography – Online](#)

ORDER ONLINE

Right Photography offers online ordering to all of the schools we service with the exception of our Elementary Schools, they will receive previews and an order form for viewing and order placing.

The student images will be uploaded and available in 24 to 48 hrs. Just click on the link below to take you the online portal.

Find your school and click on the logo / school's name. Photo days are sorted by Original and Retake dates, be sure to click on the correct session.

To access your student's photos, you'll use their student ID number as your online code. This is the number on your student ID card.

We are offering Graduation Portraits online to a few select schools as a first run to make sure the new portal runs smoothly with the new changes. All schools will have the ability to order online Graduation portraits by next fall.

IMPORTANT INFORMATION

Online pricing is 10% more than ordering on photo day at the camera. This is a cost added by the online ordering system we use. You can always save the 10% by ordering on photo day or on retake day.
